

Car Resale Value Prediction

Defining the Problem Statement:

- The main aim of this project is to predict the price of used cars using the various Machine Learning (ML) models.
- The user can insert the model, year, kilometres, and etc,, then they get the correct market price.
- It's help to buy a best used car with best price.
- To name a few characteristic features required by the customer.
- The project Car Price Prediction deals with providing the solution to these problems.
- Through this project, we will get to know which of the factors are significant and tell us how they affect the car's worth in the market.
